

Abaxis Telemedicine Consultant Information

Our commitment to providing you with quality results does not end when you receive your results. We provide you with expert advice to help guide your patient care. Abaxis Point-of-Care consultants can help you understand data generated from your VetScan on-site diagnostic analyzers.

We can help you interpret data and discuss diagnostic plans and treatment options. We aim to provide you with an expert in each field of veterinary medicine, a consultant who can efficiently communicate with you and provide the information you need to best help your patients.

To arrange for consultation, please call customer service at 800-822-2947, fax to 510-372-0373 or email vetconsulting@abaxis.com. Consulting services are available Monday through Friday from 4 AM to 5 PM PST and Saturdays 9 AM to 12 PM PST.
